### DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on September 26, 2002 has been entered.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

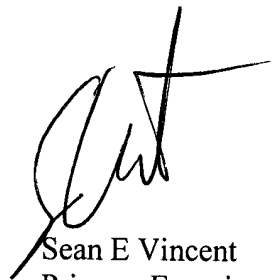

4. Claims 5-8 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Seymour (US 3846104) in view of Seymour (US 4229200).

5. Seymour '104 taught methods of shaping heated sheets of glass including placing a heated sheet of glass on a lower "outline shaping mold" while an upper vacuum shaping mold is held in an upper position, lowering the upper vacuum mold towards the glass sheet, raising the lower outline mold with the sheet towards the upper vacuum mold, drawing a vacuum in the upper vacuum mold to form the glass sheet against the upper vacuum mold covered with a stretchable fiber glass fabric, moving a tempering ring under the glass sheet held on the upper vacuum mold, releasing the glass sheet from the vacuum mold onto the tempering ring, and moving the bend glass on the tempering ring to a tempering step (see col. 5, lines 39-53; col. 6, lines 4-58 and 7-75; col. 10, line 32 to col. 11, line 26 and the figures). Seymour '104 does not teach developing first and second vacuums in first and second vacuum chambers of the upper vacuum mold to mold the glass sheet in two stages.

6. Seymour '200 taught similar processes wherein a vacuum platen is flanked by curved shaping blocks and vacuum is developed first in the platen, then in the curved shaping blocks (see col. 11, line 57 to col. 12, line 31). It would have been obvious to a person of ordinary skill in the art at the time the invention was made to replace the upper vacuum mold of Seymour '104 with the platen and blocks of Seymour '200 because Seymour '200 taught that a "relatively deep bend" was more attainable in the side portions of the glass sheet.

*Conclusion*

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sean E Vincent whose telephone number is 703-305-3607. The examiner can normally be reached on M - F (8:30 - 6:00) Second Monday Off.
8. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven P Griffin can be reached on 703-308-1164. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9310 for regular communications and 703-872-9311 for After Final communications.
9. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0651.
